

13th October 2021 – Circular walk Bishops Wood via Burlawn returning via the Camel Trail from Wadebridge.

A brilliant time was had by the long walks group on the October walk. The first task was finding the out of the way forestry commission car park but everyone managed beautifully and we got off promptly.

A lovely shady walk through the woods with beautiful toadstools along the Camel River and after a short break climbed the only challenging bit up to a field and through Burlawn.

We followed lovely old tracks with views over Wadebridge and the Camel estuary down to the start of the camel trail passing a gate with an innovative repair.

After lunch at a bird viewing hide with seats a leisurely stroll in the sunshine along the Camel Trail back to the car park.

We had lovely weather bright sunshine but not too hot. Thank you everyone, new and seasoned members, who came and helped make it such an enjoyable experience.
